

STEPHEN M. DESIO, M.D.
ORTHOPEDIC SURGERY & SPORTS MEDICINE

Worcester Medical Center

Worcester, Massachusetts

Admitting Procedure Inpatient and Same Day Surgery

General Information

The hospital will call you after 2 p.m. the day before your scheduled admission to give you the time to report to the Admitting Office. You will enter Worcester Medical Center on Level 3 of the hospital. Registration, as well as Same Day Surgery is located on Level 3. Central Registration, as well as your room will be on this same level. You may enter from either the North or South entrance. Registration is Suite 354 North Registration. It is located across from the waterfall in the atrium Level 3.

- If your admission is scheduled for a Monday, a hospital representative will call after 2 p.m. on the previous Friday.
- If your admission is scheduled for the day after a holiday, a hospital representative will call you on the last working day before the holiday.
- If you have not received a call by 5 p.m. (or if you have a question about your admission time), please call:

Worcester Medical Center

(508) 363-9371

or, you can log on to the hospital web site at:

Food Before Surgery

- You may not eat or drink anything after midnight prior to your surgery. You may take your medication as prescribed by your physician with sips of water. Check with your doctor regarding which medications you should and should not take on the morning of surgery.

Before you come to the Hospital

- Wear loose, comfortable clothing
 - If you are having shoulder surgery, a t-shirt or sweatshirt a size larger than normal will be most comfortable. As an alternative, a button down shirt can also be utilized. Your sling will be worn outside your clothing.
 - If you are having knee surgery, sweatpants or loose pants will be most comfortable as a bulky bandage will be applied after surgery.
- Leave all valuables at home, including rings and jewelry.
- Arrange transportation for when you are discharged. You will **NOT** be allowed to drive after surgery.
- Leave all medications at home. Bring a list of all medications you are currently taking to the hospital and to your appointment with the anesthesiologist.
- Do NOT take any Aspirin, Ibuprofen, Advil[®], Aleve[®], Motrin[®], or anti-inflammatory medications for 10 days prior to your surgery. Non-aspirin medication, such as Tylenol is permitted.
- Blood thinning medications, such as Coumadin[®], or Warfarin are usually stopped several days before surgery. If you are on a blood thinner medication, please be sure to discuss this with your physician for instructions on stopping it prior to surgery. Do Not Stop taking this medication without discussing first with your physician.
- If you have had “heart valve surgery”, “stents”, “pacemaker”, or any type of “replacement” surgery, please inform your surgeon prior to the procedure.
- We participate in the “Sign Your Operative Site” program developed by the American Academy of Orthopedic Surgeons. Dr. Desio will personally place his initials on your operative site to confirm the site of surgery before you enter the operating room. Your operating room nurse and your anesthesiologist will also ask you to identify the operative extremity.

- Practice your postoperative exercises before your surgery, so you will be familiar with them.
- Before you leave the hospital, you will be given complete postoperative instructions.
